AFRL workshop hosts historically black universities

FAIRBORN, Ohio — Charles E. Browning, director of the Air Force Research Laboratory's Materials and Manufacturing Directorate (AFRL/ML) addresses representatives from several Historically Black Colleges and Universities (HBCU) during the first AFRL/ML HBCU Collaborative Workshop held July 24 at the Holiday Inn Conference Center, Fairborn, Ohio. The workshop provided an opportunity for academicians, leaders, and researchers from AFRL/ML and invited universities to discuss mutual science and technology interest, along with methods for sharing technical capabilities and talent in the near future. Representatives from Alabama A&M University, Huntsville, Ala., Central State University, Wilberforce, Oh., Fisk University, Nashville, Tenn., North Carolina A&T State University, Greensboro, N.C., Tuskegee University, Tuskegee, Ala., and Wilberforce University, Wilberforce, Oh., also toured the ceramics, composite, and sensor research facilities at Wright-Patterson AFB, Oh. @
